

MadiSUN Solar Business Incentive Application Form

Background:

The MadiSUN Business Program was established in 2018 to further the City of Madison’s goals in pursuing solar and renewable energy. The goal is to educate and encourage Madison businesses to install solar. It builds upon the MadiSUN for Homes program which has been run since 2016 and the City’s own efforts to add solar to its buildings.

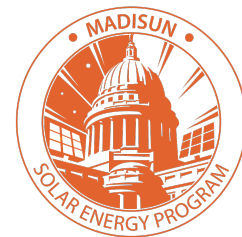

RENEW Wisconsin is the City’s contractor for the MadSIUN Business and Homes programs.

To encourage Madison businesses to “go solar,” the City has authorized a pool of \$30,000 of rebates. These rebates will be distributed through an application and reservation system on a first-come, first served basis.

New MadiSUN Incentive

The incentive will be structured to supplement the Focus on Energy state program incentive. Focus on Energy is available for 12% of a solar project’s cost, up to \$4,000. The City of Madison will continue that 12% incentive up to an additional \$4,000, or a total incentive of \$8,000 between the two programs.

Solar Project Cost	Focus on Energy Incentive	MadiSUN Business Incentive	Combined Value of Incentives
< \$33,333	12%, up to \$4,000	\$0	Up to \$4,000
\$33,333 to \$66,666	\$4,000	Additional 12%, up to \$4,000	Up to \$8,000
> \$66,666	\$4,000	\$4,000	\$8,000

Eligibility & Requirements:

Businesses located within the city limits of Madison, Wisconsin are eligible for this incentive.

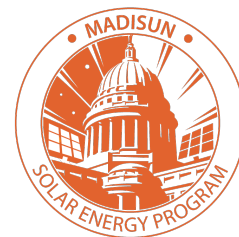

It is the City of Madison's goal to advance solar power among all businesses in the City. Thus, as a condition of receiving this incentive funding from the City, the business agrees to help educate and advance solar energy in one or more of the following ways:

- Hosting a ribbon-cutting or dedication event to unveil the installation and describe why the business pursued solar power
- Host an education session where other businesses can learn about your solar project and ask questions of key decision-makers
- Create a case-study and educational materials that can be used to promote your project

How to apply:

The first step is to select a solar contractor. Together with the contractor, determine the size and cost of the project.

To secure pre-approval for the new MadiSUN commercial incentive, complete the form below and send it via e-mail to madisun@renewwisconsin.org or by U.S. mail to RENEW Wisconsin. **Please note that two signatures are required for the application to be deemed complete: one from the customer and one from the MadiSUN contractor.** During the application review process, RENEW may contact the applicant and its contractor for additional information. It is RENEW'S aim to complete the review within a week, and to communicate the results to both signatories. If the incentive is preapproved, RENEW will set aside funds for that installation, which can be accessed as soon as the solar electric system has been energized.

MadiSUN Business Incentive Application Form

Full Name of Applicant: _____

City of Madison street address and zip code: _____

Telephone Number: _____ E-mail: _____

Federal Employer Identification Number (FEIN) _____
